| Percentage: 64% | |
| **Vivekananda Kendra Vidyalaya** | **Kanyakumari** |
| *SSLC* | *Apr 2017* |
| Percentage: 88% | |

## Projects

**Football Turf Booking**: Developed a web-based booking system using React.js with real-time data management of reservations. Integrated dynamic availability tracking and database synchronization to ensure accurate scheduling. Built responsive, user-friendly interfaces in HTML, CSS, and JavaScript, enabling seamless cross-device booking and data updates.

**Journey Health (Internship)**: Designed and developed a healthcare follow-up system to assist hospitals in monitoring discharged patients. Enabled call center agents to track patient recovery, log interactions, and escalate medical issues efficiently. Implemented features for appointment reminders, treatment adherence checks, and patient feedback collection using modern web technologies.

## Internship

| | |
|---|---|
| **NewWay Solutions LLC** | **Bangalore** |
| *Frontend Developer (Intern)* | *Apr 2024 – Jun 2024* |

Built a responsive healthcare application using Flutter and GetX for state management. Developed custom UI components and integrated REST APIs for real-time functionality. Handled backend logic and data flow using IntelliJ and managed database operations with DBeaver to ensure secure and efficient performance.

## Certifications

**CISCO**: Introduction to Cybersecurity
**IBM**: Cybersecurity Fundamentals

## Languages

English, Tamil, Malayalam
